

RBI releases quarterly data pertaining to deposits & credit, at a granular level, by category of banks. The data is an extremely valuable input for the retail banking industry. The GmB service provides the entire RBI data-series, along with the visualisation of data on the map for a granular understanding of the retail banking market in terms of its size, growth & market shares amongst category of banks.

**Access:** Campus Wide multiuser, Required One-time registration with IIMB email ID.

### How to register

Step1: Please visit the library website by using the URL <http://library.iimb.ac.in/library>
